

Bigfoot vs Yeti: A Love Story

Teacher Notes

Our Unique Footprints and Snowprints

Activity:

- Using the accompanying activity sheet encourage students to create their own footprints or snowprints by tracing around their foot.
- The planning sheet will assist students to identify symbols, drawings and words to decorate their footprints representing their unique qualities, interests and cultural backgrounds.
- Display the footprints together to create a harmony of unique prints.

Footprint Stories

Activity:

- Once students have created their footprints, encourage them to write a short footprint story to accompany them. The story should explain the elements they have chosen to include and how they represent their unique qualities.

Footprint Gallery Walk

Activity:

- Once the footprints are displayed, invite students to participate in a Footprint Gallery Walk, encouraging them to observe each other's footprints.
- Provide students with sticky notes to write positive comments about what they notice.
- Facilitate a discussion afterward:
 - What did you learn about your classmates?
 - How did it feel to have your footprint appreciated?
 - How did it feel to appreciate other peoples footprints?

Bigfoot vs Yeti: A Love Story

Help create a harmony themed community of footprints display to celebrate our unique characterises and differences.

Create a **symbol** to represent harmony.

Write a **greeting, phrase or quote** which is significant to your culture or you.

Add something special about you!
A **hobby, interest or favourite toy**.

Share an important **tradition, activity or custom** from your cultural background.

Bigfoot vs Yeti: Unique Footprints

Draw your footprint or snowprint on the page by tracing around your foot. Add ideas from your planning page including symbols, pictures and words that represent your unique qualities, interests and cultural background.
